## ABOUT US

Instant Sea Containers are a dedicated provider of sea container products in Western Australia. Born from the strength of our specialist manufacturing business, we're proud to bring our nearly 20 years of technology and experience in portable buildings, to the design, manufacture and installation of sea container products.

## WHY CHOOSE INSTANT?

### HIRE or BUY

Instant Sea Containers offers all of our container products for both hire and purchase. Our hire team has in stock our most popular products for quick delivery within 24 hours\*.

### NEW or USED

Our extensive range of new and used, conventional sea containers are also available for quick delivery within 24 hours\*. New containers are typically one ship use and used containers are often refurbished and painted inside and out to look great again.

### CUSTOMISED CONTAINERS

We design our own products so when you talk to us about your project you'll get intelligent, common sense and cost effective solutions to meet your needs. We can offer a complete service for your project including design, documentation, permits/approvals along with transport and installation.

As registered builders we're also across the requirements for ensuring our products can achieve all necessary building related approvals if required.

### BUILDING SYSTEMS and FINISHES

Instant Sea Containers manufactures container based products using a variety of different construction methods. When producing container solutions we offer SIP (structurally insulated panel) and steel framed construction systems. Interior and exterior finishes can be easily customised from an extensive range of products, with examples of previous projects available to be viewed.

### QUALITY

Instant Sea Containers is a member of Instant Products Group which is a quality endorsed organisation certified to ISO 9001:2008

We also hold ISO certifications for Health & Safety Management Systems – ISO4801:2001 and Environmental Management Systems – ISO14001.

We're committed to ensuring our company operates to the highest of international standards.

## DEMONSTRATED EXPERIENCE

Instant Sea Containers are backed by an experienced team who have been designing and manufacturing portable products for nearly 20 years. Having completed thousands of portable building projects, we were able to effectively adapt our designs and technology to the container platform. Our expertise in design, construction and management of portable projects has allowed us to extend our high quality service offering, to clients requiring container based solutions.

For customer references relevant to your proposed project, please speak to a member of our friendly team.

## MANUFACTURING CAPABILITIES

Instant Sea Containers operates a five acre manufacturing complex in Wangara and a 200 acre site in Muchea, Western Australia.

# PRODUCTS

## MINI-CONTAINERS

Mini-Containers are built to the same quality and finish as an ISO standard sea container but have been adapted to a smaller format. Our mini containers are available in the following sizes:

## DANGEROUS GOODS CONTAINERS

## SIDE OPENING CONTAINERS

## STANDARD SEA CONTAINERS

Standard Sea Containers are available in a variety of sizes to accommodate any need. Our standard sea containers feature a single set of double swing doors, timber flooring, anchor points internally and optional lock boxes. Our sea containers are built to last and are manufactured from marine-grade corten steel, perfect for transporting and storing most products for both long and short-term use. Standard Sea Containers are available in the following sizes:

**CONTAINER SITE OFFICES**

We manufacture Container Site Offices to both cyclonic and non-cyclonic specification from High Cube containers. All our container office buildings are built to comply with the National Construction Code (NCC) are energy efficient and include reverse cycle air-conditioning as standard.

10'HC

20'HC

40'HC

**CONTAINER LUNCH ROOMS**

Our Container Lunch Rooms are open plan designs manufactured from High Cube containers with kitchenette facilities and reverse cycle air-conditioning as standard inclusions. All our container office buildings are built to comply with the National Construction Code (NCC) and are energy efficient. Optional extras include furniture and appliances.

20'HC

40'HC

### CONTAINER TOILETS & CONTAINER ABLUTION BLOCKS

Our Container Toilet and Ablution blocks are manufactured with high quality fixtures and finishes to suit retail /event industries or luxury spaces. They are ideal for both commercial and worksite environments thanks to their tough, durable commercial grade finishes.

We offer designs that can be connected to existing septic or sewer systems or units that can hold their own waste. We can also incorporate solar power to any of our designs and include fresh water supply tanks to allow our units to operate in a standalone manner.

**CONTAINER SHOPS**

Container Shops and Retail spaces are easily accommodated with our vast experience in the design, manufacture and installation of these over the years. Available for virtually any purpose you can think of, we can tailor existing designs to meet your specific requirements and corporate branding.

**CONTAINER WORKSHOPS**

Instant Sea Containers has a range of containerised workshop designs suitable for your next project or site. Our container workshops give you the ability to deploy a ready to use workshop quickly and cost effectively. **Australian designed and manufactured**, we can tailor a complete internal fit-out, to suit your service or industry.

Custom solutions are easily accommodated. We can provide shelving, workbenches and racking as well as complete electrical and plumbing fitouts, ready for plug and play onsite operation.

**CONTAINER STORE ROOMS**

We have a solution for everything from a basic container with shelving for storage, to a temperature controlled store room.

Our Container Store Rooms are available for purchase, manufactured to suit your own requirements and our standard designs are also available for hire on flexible terms.

### CUSTOMISED CONTAINERS

Designing and manufacturing customised sea containers is one of our specialities!

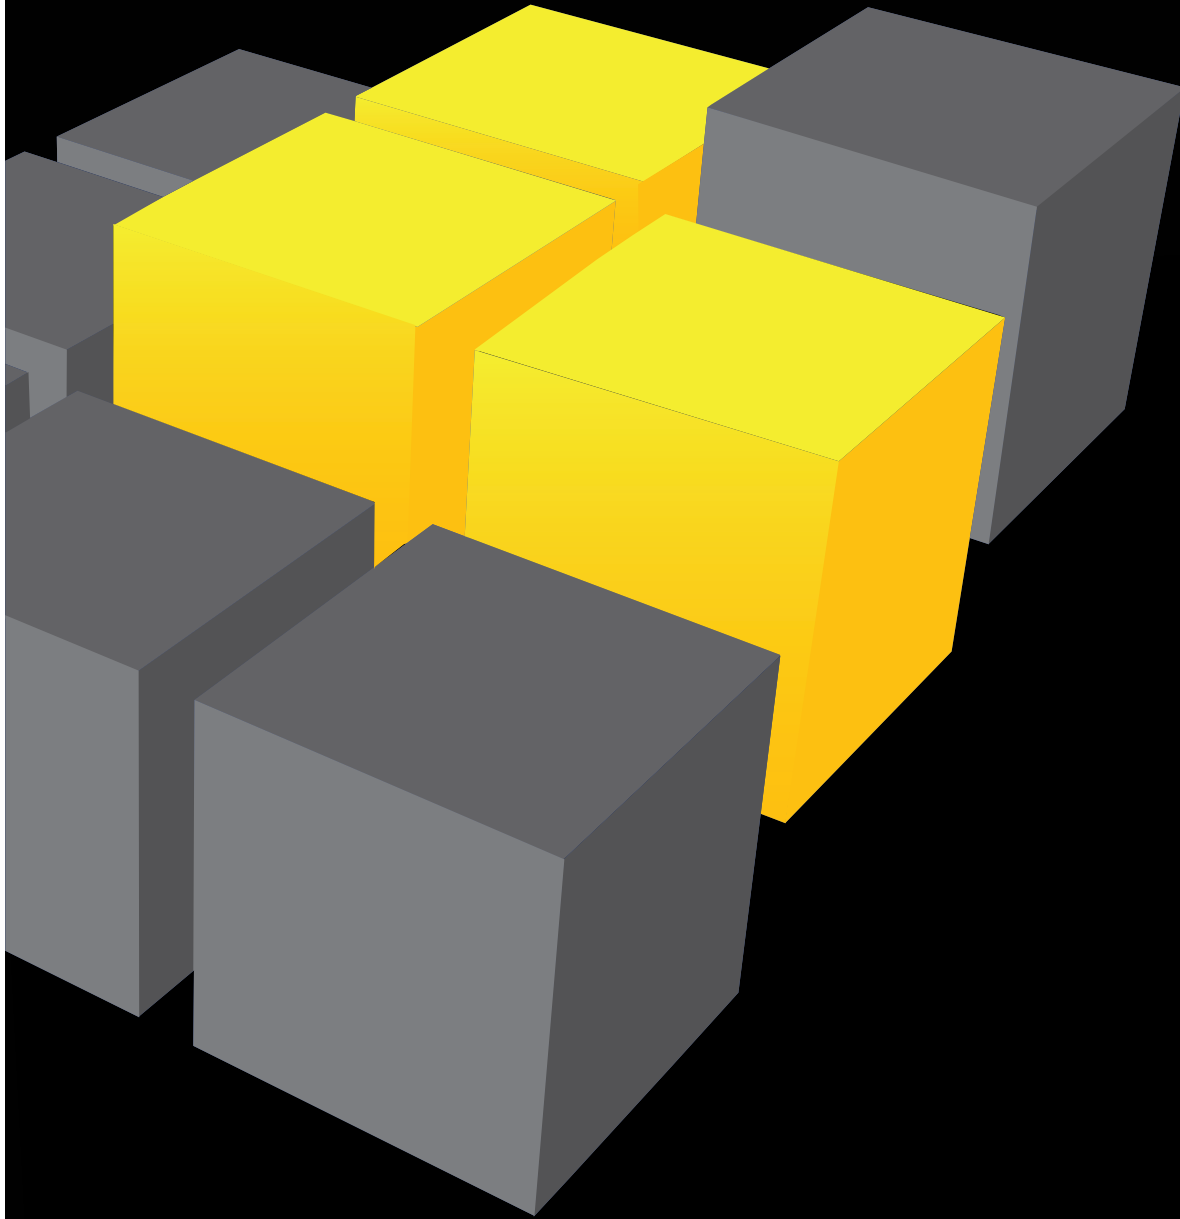

Our distinctive designs and quality craftsmanship are a result of our nearly 20 years of experience in the manufacture of portable buildings. Our intellectual property and meticulous manufacturing processes have elevated us to leaders within our industry. As registered builders, we understand compliance, allowing us to manufacture long lasting, high quality products that meet Australian standards.

Having successfully completed over 5000 projects, there is no limit to what can be created for you! Standard designs and sizes are available for guidance, as are our sample projects.
